

# Small Boats

tough with large payload

The varied and demanding tasks faced by the Fire & Rescue Services require that each piece of equipment is robust and reliable. **DSB RTB 1** boats meet these requirements.

The **RTB 1** is a 3m long paddleboat. It is easy to handle and has, for safety, four separate air chambers. Even with a payload of 700 kg the 40 cm diameter buoyancy tubes are only half submerged. The entire boat is manufactured in accordance with DIN 14961.

### **Fast Inflation**

The **Fast Inflation** model, known as **RTB 1 (SEB)**, is inflated using a standard breathing air cylinder, and is fitted with pressure relief valves. Even on the roof of a fire appliance it is possible to fully prepare the boat within about 30 seconds.

### **With Engine**

The **RTB 1 MOT** is the model to choose if the boat is to be fitted with an engine

The boat is manufactured from Polyester with a hypalon/neoprene coating. The slatted floor and strong rubber bottom make the **DSB RTB 1** range of boats suitable for use in ice rescue conditions.

In use with the  
Fire & Rescue Services  
in Germany and elsewhere

# I.C. BRINDLE

## & Co. Ltd

The RTB 1 (SEB) in use on frozen waters

Weight	25 kg
with Floorboards	37 kg
Overall Length	3.00m
Overall Breadth	1.20m
Internal Length	2.30m
Internal Breadth	0.40m
Tube dia.	40cm
Payload (buoyancy half submerged)	700 kg
Air Chambers / Valves	4
Relief Valves (SEB model only)	2
Grabline / Carry line Anchorages	8
Hoisting points	4
Towing Point	1
Rowlocks	2
Internal Lifelines	2
Foot Bellows	1
Thwarts	2
Paddles	4
Stowage Valise	1
Packed Dims. approx. 1050 x 50 x 38 cm	
Colour	Yellow

### Fabric

Polyester with a hypalon/neoprene coating.

### Inflation

#### **RTB 1 & RTB 1 MOT**

- Foot bellows or
- Electric inflator (not supplied as standard)

#### **RTB 1 (SEB) & RTB 1 (SEB/MOT)**

- Air cylinder or Foot bellow
- Electric inflator (not supplied as standard)

### Motor

The **RTB 1 MOT** is fitted with a transom on which may be mounted a standard shaft outboard engine of maximum size 10hp. This version is also available with the **SEB** (fast inflation) option

### Markings

Markings "Fire & Rescue" or similar are included if required

### Hoisting

A lifting bridle can be supplied if required
