

# Ro-Ro Emergency Equipment Locker

*Fully complies with UK MCA Merchant Shipping Notice M.1359  
Emergency Equipment Lockers for Ro-Ro Passenger Ships*

Our Emergency Equipment Lockers contains equipment as required by UK Merchant Shipping Notice M.1359 (for Ro-Ro Passenger Vessels), to aid escape from enclosed spaces within the ship in unusual circumstances, such as when the vessel has a heavy list. The equipment may also be used during damage control or to aid escape when routes are obstructed.

The wide range of equipment is secured in a purpose designed, robust GRP cabinet. Although compactly stowed individual items are readily to hand on opening the locker door.

The door handle, hinges and three point locking system are manufactured in stainless steel (316), as is the stay which is used to hold the door open when the vessel is rolling and pitching.

The locker is weather tight to IP 56.

<b>Locker</b>	
Approval	LRS (type approved)
IP Rating	IP56
Dims (mm)	1895(h) x 791(w) x 660(deep)
